

June 20, 2017

Fuji Machine Manufacturing Co., Ltd.

## Kunshan Private Show 2017

Fuji Machine Manufacturing Ltd. (headquarters: Chiryu, Aichi, Japan; president & CEO: Mr. Nobuyuki Soga) held a technology seminar at the Golden Eagle Summit Hotel on June 22, 2017 with CKD Corporation, OMRON Corporation, and TAMURA Corporation in attendance to introduce initiatives for smart factories with entire line management. We also held a demonstration using a real line set up in the showroom at Kunshan Fuji.

### Background

In vein with the ongoing discussions about improvements in the manufacturing industry, Fuji is putting "Fuji Smart Factory" on the table, to propose both flexible and efficient production founded in the ideals of IoT. The Kunshan Fuji showroom has recently been revamped and has the latest equipment in its demo line. We invited users to the Kunshan private show to provide more information about Fuji Smart Factory and allow them to experience it for themselves.

### 1. Seminar at Golden Eagle Summit Hotel

#### Agenda

- Latest product development roadmap (Fuji Machine Manufacturing Ltd.)
