

Target ZERO

At this exhibition, with our theme "Target ZERO", we will introduce the latest placement solutions that we are aiming for: "zero placement defects," "zero machine operators," "zero machine stops," and "zero placement limits".

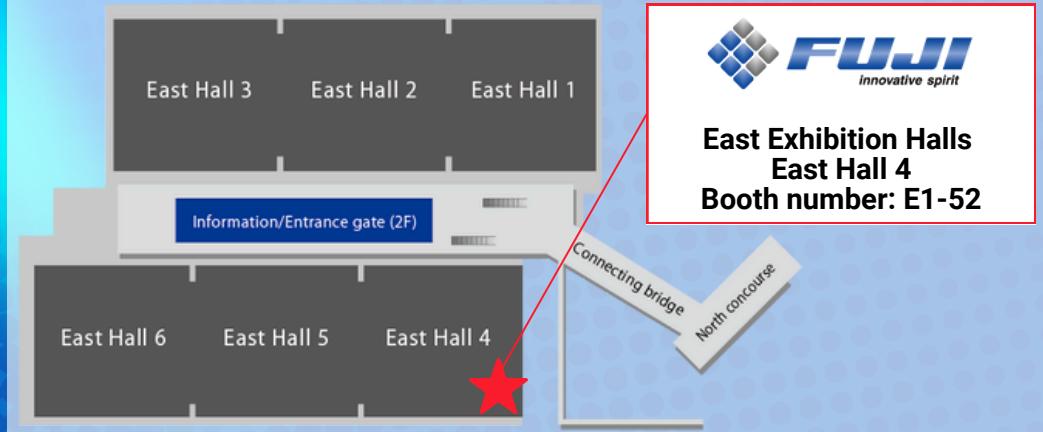

The integrated production system **Nexim** and the placement machines **NXTR** and **AIMEXR** will be exhibited, and visitors can see the next generation of placement technology that realizes automation and manpower saving.

Exhibition booth information

Venue: Tokyo Big Sight (Tokyo International Exhibition Center)
Dates: Wednesday, January 21 to Friday, 23, 2026 10:00 to 17:00

Visitor registration

Scan the QR code on the right to register online.
After registration, you will receive an email from the secretariat.
Print out the attached badge in color and bring it to the exhibition site.

Exhibition information

► Automation solution FUJI Smart Factory Platform

NXTR PM NXTR A model (Automation)

► Offline changeover units

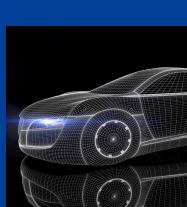

Significantly reduce the process of preparing parts

Automated nozzle setup and changeover

Simple and reliable part preparation support

Comprehensive support for feeder management

Advanced feeder stand
Nozzle supply unit
Kitting Navigation
Smart Storage

► SiP and automotive solutions

FUJI Smart Factory Platform NXTR S model

► Industrial machine and server solutions

Fuji Flexible Placement Platform AIMEXR

► Automated solutions for insertion processes

Multipurpose Automated Fabrication Machine sFAB-D

► Software solutions

Integrated Production System **Nexim**

NEW! **Nexim**'s new features will be unveiled for the first time at the event. Demonstrations will also be provided.
